CHANCELLOR'S COLUMN - Impressions of Cuba

Chancellor Charles W. Sorensen

The door to Cuba was opened briefly late in February, allowing a small delegation from UW-Stout to explore educational opportunities there. It was a memorable experience. The seven-day visit was long enough to gain some strong impressions about Cuba, but too short to draw any firm conclusions.

At the invitation of INTUR, an agency formed by the Cuban government to develop tourism, I joined two of our staff members, Esther Fahm, dean of the School of Home Economics, and Jafar Jafari, associate professor of hospitality and tourism, for a visit which began with our late night arrival in Havana February 24.

Havana is a large city, nearly two million people reside there, yet I was struck by the almost total darkness that greeted our flight. Streets were nearly void of traffic and while the main streets had street lights, the side streets were

normally totally dark. It was very easy to imagine what cities must have been like in the nineteenth century before the development of modern, efficient street lighting.

When I had the opportunity to tour Havana during the daylight hours, I was struck by its deterioration. Everything seems in need of repair; buildings, roads, communication systems, water systems, everything. It is a gray, somber city and somehow the word melancholy captures how I felt as we visited this Cuban capital. Because there is little electrical power, the buildings are dimly lit and everything inside seemed to reflect the exterior. Roofs leaked, ceiling tiles were stained, plumbing was usually in ill repair and at times running water was a prize commodity.

In contrast, I gained a very positive impression of the people. We met primarily with university faculty and officials and governmental professionals. I was struck by their optimism, their curiosity about the United States, their pride in the revolution and what it accomplished in the area of health care and education. Health care is generally good and free to all Cubans. Their elementary and secondary education is mandatory, and it is generally accepted that nearly all Cubans are literate.

I came away with the impression, too, that these people realize that without normal relations with our country, Cuba cannot truly prosper.

After five days in Havana, we drove 90 miles east to Veradero, a coastal city that is experiencing rapid tourism growth. Although we drove at night, there were

hundreds of bicyclists and pedestrians going in either direction along the sides of the highway.

With the tap on needed Soviet oil closed, transportation is almost at a standstill. Oil supplies, when available, go to industry and agriculture. If you need to go from one town to the next, you have no alternative but to join the army of bicyclists and pedestrians. Public transportation is scarce.

Importation of American automobiles ceased in 1959. Later model autos are generally the Russian Ladas. With no inventory of parts available, autos are literally wired together to keep them running. Our group concluded that if you need a 1959 Chevrolet, Cuba is the place to find one.

Along a 12-mile stretch of coast from Veradero, with some of the world's most beautiful beaches, there are 7,000 hotel rooms. Plans call for adding 23,000 more in this decade. Cuba now attracts approximately 300,000 tourists annually, the same number the country attracted before Castro took control. Cuba would like to host 2 million tourists a year. The government is counting on dollars from tourism to pave the road to economic recovery.

With one of the largest education programs in hospitality and tourism, it's apparent that UW-Stout has much to offer Cuba's emerging industry.

But there are numerous constraints governing the development of any relationship. Our government has sanctions in place that preclude any arrangement at this time. Before our group left for Cuba, the State Department

made it clear that we could do nothing that might aid the Cuban economy, even forbidding us to provide information that might be helpful.

University of Havana officials that met with us eagerly sought to establish faculty and student exchange programs or short courses in tourism training. Although they need expertise in tourism, there isn't a single educational area that they are not interested in.

Cuba has been out of the mainstream for more than 30 years. The country offers proof that isolationism can be stifling. While other countries search for new identities, Cuba appears to be on the brink of change of some kind as well.

I expect that in this decade we will see the United States and Cuba formally recognize one another, establish trade relationships, and normalize relations. This is logical and realistic, but expect very little until after the November elections.

UW-Stout has a long standing commitment to international education. In this instance, we are one of only several universities in the country to have explored programs with Cuba. From my perspective, this kind of global networking helps UW-Stout keep pace with change and helps UW-Stout grow educationally.

WILLKOMM HONORED AS OUTSTANDING ALUMNI

Therese Willkomm, Ankeny, Iowa, received the Outstanding Alumni award during winter commencement exercises December 14.

Willkomm has been program director of farm family rehabilitation management for the Easter Seal Society of Iowa Inc., in Des Moines, since 1986. Her responsibilities include providing rehabilitation services to farm families affected by physical disabilities and providing agricultural worksite modification consultation.

Prior to joining the Easter Seal Society, Willkomm held positions with Purdue University, West Lafayette, IN; Management Consulting and Rehabilitation Services Inc., Ankeny, IA; Mankato State University, Mankato, MN; Drake University, Des Moines, IA; and the program for Independent Living on campus.

Willkomm received a bachelor's degree in vocational rehabilitation from Stout in 1982, and a master of science degree in vocational rehabilitation from Drake University, Des Moines, in 1984. She has been published

(left to right) Louis and Joanne Willkomm joined Chancellor Charles W. Sorensen to honor their daughter, Therese Willkomm '82 as the Outstanding Alumni Award recipient

extensively, and has presented on rural rehabilitation technology and rural service delivery issues in numerous states and foreign countries.

Willkomm was president and founder of the Iowa Rehabilitation Technology Alliance in 1988; founder of the Dunn

County Citizen Advocacy Program for Developmental Disabilities in 1980; recipient of the CORA Award for Women in Communications in 1990; and Young Woman of the Year in 1984. She has also received several research grants.

2 ALUMNI ASSOCIATION OUTLOOK

PARENT PHONATHON COMPLETED

Student callers reached over 4,000 UW-Stout parents during the spring parent phonathon. Clockwise from lower left: Dean Tenpas, Dana Pischke, Darrel Austin, Tricia Kilpatrick, Cynthia Gulati, Denise O'Malley, Andrea Hougaard and Craig Smiga.

The second annual fund-raising phonathon directed toward parents of current UW-Stout students has been completed. The total amount pledged, including matching gifts, is over \$31,600 which is 92 percent more than last year. The parent phonathon is part of the overall annual fund-raising campaign conducted by the Stout Foundation on behalf of current needs of the university.

Current UW-Stout students staffed the phones and enjoyed visiting with parents, reminding them about Family Weekend and explaining the Annual Fund. "It was great. The parents here are very friendly.

My best experience was when I got my first \$100 pledge," said Andrea Hougaard. "It felt good to know that people can afford to give and don't hesitate to help out."

"The phonathon was a new experience for me, and I enjoyed the variety of students that I worked with. My best experience was reaching an alum who was also a parent. He had a lot of interesting things to say, and we both enjoyed the call."

Thank you to all the parents who made this project so successful and enjoyable.

PRESIDENTIAL GREETING

Randall L. Pickering

Your Stout Alumni Association has always focused on being the mechanism for us as Alumni to remain in contact with the University and our fellow Alumni. The question is, how do we foster this contact...how often...by what means?

The Alumni Association Board of Directors has directed the staff and executive committee to undertake a review of our strategic plan. In any good management model, there is always a phase for "evaluation." Over the next six months, that is what the Association wants to do. Evaluate itself in terms of how well our programs are working to foster and maintain contact between alumni and the University. Suzette Franks' column this month overviews

two changes approved by the Board on an experimental basis, one relating to Homecoming, and the other relating to class reunions.

We are not looking for revolution, but evolution. Alumni gatherings, participation in Department recommended conferences, and the OUTLOOK have been well received by Alumni. But in true Stout tradition, we want to do it better. My challenge to you this month is to give the subject some thought. What could the Alumni Association do to improve the post-graduation interaction between Alumni and the University. Your input will be greatly appreciated. Take a minute and send me your thoughts or comments, c/o UW-Stout Alumni Association, Louis Smith Tainter House, P.O. Box 790, Menomonie, WI 54751-0790.

This is your invitation to the... Fourth Annual "Big Reunion"

SUMMERFEST

Summerfest would like to salute all Alumni, students and friends from all UW-System Universities during the Big Reunion Weekend.

Saturday, June 20, 1992

**At the Summerfest Grounds,
Milwaukee, Wisconsin**

3:00 p.m.-Midnight

FREE ADMISSION

**Entertainment for the
Entire Family!**

Activities Include:

•City of Festival Parade at 1:30 p.m., Downtown Milwaukee •Entertainment on Summerfest Grounds Following City of Festivals Parade •Food and Beverages Sold from Over 130 Restaurants •University Booths for Alumni Check-in and University Memorabilia found in Marketplace Area (across from the Sports Area) For further information, call the Alumni Office at 715/232-1151.

3 ALUMNI ASSOCIATION OUTLOOK

ALUMNI DIRECTOR'S COLUMN

Suzette L. Franks

The UW-Stout Alumni Association Board of Directors met on Saturday, March 14, at the Ground Round Restaurant in Richfield, MN. At this meeting the board addressed some very important agenda items that have significant impact on our 1992-93 alumni programs.

As you are a valued asset and your involvement can only enhance our ability to fulfill our purpose, I would like to highlight some key decisions made that impact the Association's homecoming and reunion activities structure.

A significant discussion occurred concerning homecoming attendance which has changed considerably over the years. Today alumni are all experiencing heavy demands on their time in both their professional and their private lives. It was agreed that homecoming is an important tradition.

However, the Association agreed it should reevaluate the current activities.

The past program for homecoming was to host a pre-parade brunch, reunions and recognize the Distinguished and Service award winners at a post game banquet and dance.

In an effort to draw more of an audience to these activities, the board voted to discontinue the banquet and dance. Instead, the Association will focus the activities on an expanded brunch incorporating the recognition of the distinguished and service awards. Classes interested in special reunion programs in conjunction with homecoming are welcome to initiate such activity.

Reunions beginning in 1993 will be held in the summer months with more of an "alumni college" focus -- both social and educational. This change will affect the reunions for the classes of 42, 52, 62, 66, 72 and 82. Any class member interested in participating on the working committee for their class, please contact the Alumni Office at 715/232-1151.

Watch for complete details of the 1992 homecoming activities including the registration form in the August issue of the Outlook.

What Can an Accurate Address Mean to You?

Would you send a resume using an incorrect address and phone number to the employer with whom you most want a position? Don't you keep in touch with a current resume and address? If not, you could be missing out...

The importance of your continued contact with the UW-Stout Alumni Association is no different. Why?? The UW-Stout Alumni Association is waiting to welcome you, when you graduate, to its membership. Immediately following graduation, you become a member in good standing with the UW-Stout Alumni Association. The organization is not dues-paying. You will not receive solicitations from the Association office in order to maintain your affiliation. However, your involvement with our multitude of activities will substantially sustain your satisfaction...and ours.

Your continuing involvement and support is crucial to UW-Stout, the UW-Stout Alumni Association and YOU. This support helps enhance the university's reputation as a premier undergraduate institution with strong supporting graduate programs. And, at the same time, your own reputation as a UW-Stout graduate is enhanced. The quality of your degree remains constant with the reputation of the university.

The Alumni Association, organized in 1934, sponsors a wide range of programs, benefits and services. Some

of these activities include reunions, Homecoming, alumni chapters and many other special benefits for UW-Stout alumni.

Still you ask, "How can this enhance my career opportunities?" The Alumni Association in cooperation with potential employers has begun providing targeted mailings of job notices to Stout alumni. The company selects the major and years of graduation required for the position and the UW-Stout Alumni Association sends the notices. This service is provided at no cost to the university, the alumni association or alumni.

In order for you to find this service useful at some future date, this office must have your correct name and address. If you move or change your name after you leave UW-Stout, please inform us. It will only take you a few minutes, and it will allow us to not only send you potential employment opportunities and copies of the UW-Stout Outlook, but notices about alumni events in your area and homecoming reminders.

We hope the UW-Stout Alumni Association will be helpful to you over the years, and we also hope you will participate in and take advantage of all the programs. So, Stay In Touch!

New Alumni Association Board Members

New board members of the Alumni Association were installed at the March 14 Board of Directors meeting. They are: (front l-r) John Ostrowski BS '79, MS '80, Suzette Franks, Alumni Director, Issac Owolabi BS '84, MS '84, and Chancellor Sorensen (back l-r) Alumni Board President Randy Pickering '79 and Todd Trautmann '84. A complete roster of the Alumni Association board appears on page two.

THE STOUT INSTITUTE

UNIVERSITY OF WISCONSIN-STOUT

GOLDEN ANNIVERSARY

Plans are underway for a Golden Anniversary celebration for the Classes of 1941, '42 & '43 in July 1992. A committee composed of alumni has been formed to work on arrangements.

Serving on the committee are 1941-43 graduates: Sam Barich, Kay Michaels Barnard, Nona Landt Crist, Vernon Feiler, Charles Finney, Jack Hammond, Ferne Olson Hollister, Margaret Dockar Howland, Evelyn Berg Klug, James

Peterman, Robert Rudiger, John and Edith Lackner Richter, Wes and Harriet Greenwood Schlough, Howard and Phyllis Wagner Schwebke, Myrtis Petersen Whydotski, and Gretchen Voechting Ziesmer.

Details on all of the events will be mailed early May to all 1941-43 graduates. In the meantime, they are asked to reserve July 10 and 11 for their own special "homecoming."

4 FOUNDATION OUTLOOK

FOUNDATION ANNOUNCES THE ESTABLISHMENT OF SEVEN NEW SCHOLARSHIPS

Great Northern Corporation Honors Retiring Officers

Ralph Searles, CEO and president of Great Northern Corporation, met with university officials recently to create scholarships and grants in honor of the co-founders of the corporation, J. James Davis and Robert W. Brown. Great Northern, founded in 1962, is an independently

owned, multi-plant company engaged in the design, manufacturing and marketing of corrugated containers, creative point-of-purchase displays, plastic protective packaging and laminated paper products. Searles noted that the vision provided by the co-founders has allowed the company the ability to respond successfully to market demands and maintain a leadership position in the packaging business.

Two \$1,500 scholarships will be awarded annually to UW-Stout students who are in the packaging program. The two \$1,500 grants in honor of the co-founders will enable the department to acquire laboratory resources and support professional staff and/or student development.

Dr. Arthur Muller, chair of the Packaging Department noted, "The scholarships and grants are a tribute to the two Great Northern co-founders. And, the UW-Stout Packaging Department is honored to have been chosen to receive the funds."

(Above) Chancellor Charles W. Sorensen accepting a plaque which identifies the two newly established packaging scholarships and grants in honor of retirees: Robert W. Brown, former Executive Vice President and J. James Davis, former President and CEO, Great Northern Corporation. (l-r) Pat Reisinger, Stout Foundation Director; Dr. Art Muller, Packaging Chair; Cynthia Searles, Ralph Searles, CEO and President of Great Northern Corporation and Chancellor Sorensen.

(Below l-r) Robert W. Brown and J. James Davis

John A. and Kathryn M. Jarvis Scholarship

Friends and family of the late John Jarvis have established a scholarship in the name of both Kathryn and her late husband, John. The \$500 scholarship will be awarded each year to a student who is a graduate of a Dunn County Wisconsin high school and who is enrolled in the School of Industry and Technology. The scholarship will be awarded beginning the fall of 1992.

John Jarvis served as dean of industrial education during the years of change and growth. He provided the leadership which lead to the subsequent reorganization of the School of Industry and Technology. He was a leading force in the industrial education profession. He authored several textbooks and held major offices in all of the related professional industrial education organizations while continuing to serve as the dean. Kathryn continues to live in Menomonie.

Dori and Mike Ritland Scholarship

A Stout professor has established a \$500 scholarship for a psychology major or public relations specialization student. The Dori and Mike Ritland Scholarship will be awarded beginning in the fall of 1992 for junior or senior students who are members of the local Society of Human Resource Management. Mike Ritland is a professor of psychology and has been on the university's staff for 28 years. The scholarship will be administered through the Stout University Foundation Inc. "We're pleased to have the opportunity to offer a scholarship in the psychology area with the public marketing emphasis because of Dori and Mike's generosity," said Pat Reisinger, Foundation director.

Colleagues and Former Students Salute Margaret Harper

Margaret Harper

"overwhelmed, thrilled and truly honored" to have a scholarship established for her in the School of Home Economics.

The endowed scholarship will provide an annual monetary award to a senior who is majoring in home economics educational services, maintains a 3.0 grade point average and will fulfill the

student teaching requirement in the year the scholarship is awarded. Contributions continue to be accepted for the scholarship. She enjoys hearing from friends and former students. Her address is: 825 East Seventh Street, Concordia, Kansas 66901-3109.

Westinghouse Establishes the Ralph A. Stevens Scholarship

Westinghouse, Elliott Valve Division, Houston, Texas, has established an endowed scholarship in honor of Ralph A. Stevens '60, former plant manager of Elliott Valve, who died following open heart surgery June 21, 1991. The scholarship will be awarded annually to undergraduate students who are majoring in industrial technology with a concentration in organization management. It is the first scholarship to be awarded for students in that program.

Ralph began his Westinghouse career in 1965 as an instructor in fire control. He held sales, supervisory and management positions for Westinghouse divisions before assuming the leadership of Elliott Valve in 1984. Ralph was instrumental in doubling the gross sales at Elliott after years of decline due to Elliott's direct relationship to the oil industry. Ralph attributed the success to the employees. One official explained that Ralph had the ability to inspire his employees, and Ralph's comment, "It's not the 'IQ' but the 'I will' that's important," reflected his confidence in the workforce at Elliott.

Gilbertson Memorial Scholarship

A \$300 memorial scholarship will be awarded this semester at University of Wisconsin-Stout in memory of Michael T. Gilbertson, 20-year-old son of Carlyle and Ruth Gilbertson, who died as the result of a car/bicycle accident last March.

The scholarship will be available to a currently enrolled student in the university's master's degree program in guidance and counseling. It will be based on need plus interest and professional dedication to career guidance and counseling programs.

Funding for this scholarship is being provided by a group of professionals in the United States who are members of the National Career Development Guidelines Training Cadre, a program of the National Occupational Information Coordinating Council (NOICC), Washington, D.C., and by the Gilbertsons.

The Arthur M. Nakatani Endowed Education Scholarship

Arthur Nakatani

Chancellor Charles W. Sorensen announced the creation of the Stout Foundation Arthur M. Nakatani Scholarship with an initial gift of \$25,000 from Mrs. Kiyo Nakatani, Captain Cook, Hawaii, in memory of her son who died in 1989. Arthur graduated from UW-Stout in 1971 with a degree in industrial education. He received his master's in

vocational, technical and adult education in 1972. He was teaching in the Kealakehe Elementary and Intermediate School in the District of Kona at the time of his death.

Mrs. Nakatani said, "Arthur loved his students. He was a born teacher who had found his profession and enjoyed every minute with his students."

The \$1,250 scholarship will be awarded annually to students who major in education and who exhibit Arthur's abilities with children. A preference will be given to Hawaii residents.

Chancellor Sorensen, in accepting the scholarship, remarked, "Teaching is a most important profession. Teachers are the most important individuals in a student's life other than their immediate family. They have a profound influence on students, and we all remember a teacher who positively affected our lives. This scholarship will honor Arthur's life and, at the same time, honor an individual who will instill the love of learning in others and make a difference in students' lives. Arthur's career will be fulfilled, and continue through the scholarship awardees teaching adventures."

5 ALUMNI IN THE NEWS

Stout Graduate to Head First Company in Stout Technology Park

Tom S. Cervenka, who graduated from UW-Stout in 1984 with a BS in industrial technology and majored in manufacturing engineering, will head up a "high tech" custom injection molding facility being established in the Stout Technology Park by Phillips Plastics Corporation. The plant will be an automated facility utilizing CAD/CAM and robotics to manufacture medical instruments, devices and tools and medically implantable products that will be marketed worldwide. The plant will initially employ 25 people but anticipates an expansion up to 200 persons in two to three years.

This will be the first manufacturing plant in the technology park. Chancellor Charles W. Sorensen and Bruce Siebold, dean of the School of Industry and Technology, welcomed the company and pledged university cooperation to establish a mutually beneficial relationship. In meeting with Cervenka,

(l-r) Paul Hoffman, Director of the Stout Technology Park; Tom Cervenka '84, Operations Coordinator for Phillips Plastics; Pat Reisinger, Executive Director of the Stout University Foundation; and Joseph Hollan, Associate Dean of the School of Home Economics

the Chancellor indicated that as a result of the technical expertise and resources of the university in the areas of plastics, packaging, rehabilitation technology, technology transfer, etc., the university was well positioned to be of assistance to the company. The Chancellor also noted that the university has received

permission to plan an ABET Credited Manufacturing Engineering Program. The dean has indicated a business/industrial professorship will be extended to Cervenka to facilitate interaction between the company and faculty and students of the university. Cervenka stated that they chose the Stout

Technology Park because of the "close relationship with the University of Wisconsin-Stout."

Phillips Plastics will initiate manufacturing in a leased 15,000 square foot speculative building but has taken option on an adjacent lot for the possible construction of their own building. They also own six acres in the park on which they eventually plan to construct an educational facility for their company. Paul Hoffman, director of the technology park, said that "Phillips Plastics is exactly the type of company needed in America for the growth and benefit of the country. It is a company that while serving the needs of society today has a vision for the future and is willing to invest in research and development for the future. It is a perfect first company for the technology park."

The summer of 1992 will witness not only the establishment of this "high tech" manufacturing plant but the opening of the 20,000 square foot educational facility of the Chippewa Valley Technical College. One of the priorities for the park, according to Hoffman, is to find funding for an additional speculative building for leasing, as other companies are expressing interest in the Stout Technology Park.

Art Graduate Receives Excellence Award

Kristine Wohlsen, a 1988 graduate of the art and design department, recently won the Gold Idea '91 Industrial Design Excellence Award and was featured in "Innovation," the journal of the Industrial Design Society of America. The competition is one of the top forms of recognition in design. Wohlsen's recognition was for the design of a device called "the Tadpole," a product that is intended for use by infants diagnosed with gastroesophageal reflux. GER, as it is also known, is a malfunction of the esophagus muscles that causes frequent return of stomach contents. If untreated, GER can cause weight loss, failure to thrive, abnormal neurologic symptoms and apnea. Wohlsen, an industrial designer at Tumble Forms, developed the product along with Michael Gravel of Bissell Healthcare Corp.

Kristine Wohlsen '88

IN THE BLUE DEVIL SPIRIT!

Catherine Schneider Moore '90 (above) of St. Paul was the winner of the drawing for the UW-Stout sweatshirt from the Alumni Association. Moore, a second year law student at Hamlin University, was one of 43 respondents to the association's interest survey.

Mosley Chosen National Rehabilitation Association President

Spencer L. Mosley '72 of Green Bay, Wisconsin, has been chosen by the National Rehabilitation Association as its president for 1993. Mosley has served on the board of NRA, as the president of the Great Lakes Region, and as the chairperson of the ACCESS U.S. program. He will serve an initial one-year term as president-elect and then

assume the presidency on Jan. 1, 1993.

During his tenure, Mosley will address, among other issues, the actualization of the Americans with Disabilities Act, reauthorization of the Rehabilitation Act, the coalescence of chapter and division positions, and the continued progress of the ACCESS U.S. program.

(l-r) Spencer Mosely '72 poses with Patricia W. Reisinger '61 and Chancellor Charles W. Sorensen in Minneapolis.

6 ALUMNI ACTIVITIES

JANUARY IN HONOLULU

The Stout Alumni Association took advantage of Chancellor Sorensen's business schedule to invite alumni in Hawaii to a buffet and program Saturday, January 25. The buffet and alumni plans were coordinated by Jim Hamachek '91, assistant manager of Trelleses Restaurant, Outrigger Prince Kuhio. He was ably assisted by the manager of the restaurant, Jana I. Stamos '84. Twenty-seven alumni and guests enjoyed socializing, dinner and Chancellor Sorensen's address. Recognition in the form of Stout gifts was given to the following: Kiyoshi Minami '44, earliest graduate; Jeffrey Strey '88, youngest graduate with the exception of Jim Hamachek; Herb Wantanobe '55, Hilo, and Brett Huske '76, Maui, tied for farthest from home; Robert Hirano '51, for celebrating his birthday that day.

The Chancellor presented a gift of appreciation to Buster Hagiwara '44 who engineered the Chancellor's meetings

with the Hawaii Construction Industry Association, meetings with state education officials, and acted as the Chancellor's official guide of Hawaii. Both Jim and Jana were acknowledged for their role in organizing the successful alumni program.

UW-Stout Women's Gymnastics Team Reunion

In conjunction with the WWIAC Gymnastics Championships held at Stout on February 29th, Kay Carter, Women's Gymnastics Coach, 1966-1989, along with team alumnae Barb Anderson '72 and Marlene Wieman Backhaus '69, coordinated a reunion of former women gymnasts.

Following the meet, the group met for a social gathering at Gary T's Restaurant in Menomonie. This was an opportunity to meet new friends, greet old friends and reminisce.

Awards were given to: Wendy Chamberlin Guarnaccio '83 for traveling the farthest to attend from Libertyville, IL.; and Marlene Wieman Backhaus '69 as the earliest team member in attendance.

Women's Gymnastics Team Alumnae (front left): Jenny Erdmann, Jenny Evenson, Terri Traczyk-Rezac '85, Debbie Schultz '87, Lisa Hille '87, Lynne Fosberg '85, Tammy Ouradnik Dineen '83 (middle left): Tammy Dennis '87, Barb Anderson '72, Pat Sullivan Peterson '77, Krissy Danielson '91, Michelle Scott Beeskow '90, Cosmas Whitten-Skaife '87, Wendy Chamberlin Guarnaccio '83 (back left): Carol Govin Springer '71, Marlene Wieman Backhaus '69, Cheri Johnson '91, Sheila Doroff '91, Jane Pletzer Ring '91, Jodi Schaefer '90.

Blue Devils Go A Howlin - Minneapolis/St. Paul Area Alumni Gathering

The Ground Round Restaurant in Richfield, MN was the gathering spot for UW-Stout Alumni. The group had an opportunity to meet old and new friends before boarding a bus and venturing to the Target Center to witness the defeat of the Minnesota Timberwolves by the Phoenix Suns on Sunday, March 15.

Bob Schams '83 assisted the alumni office in coordinating forty Stout alumni for the March 15th event.

In attendance as well as Stout alumni were Chancellor and Toni Sorensen, Vice Chancellor George DePuy, Patricia W. Reisinger '61,

Executive Director of the Stout University Foundation, and Suzette Franks, Alumni Director.

Awards were given to DuWayne Nennig '84 traveling the farthest (from Tampa, FL) to join the group; Kris Olson '90, Karla Buhrer '90 and Deb Blakeborough '90 for the most recent graduates; Jack Graham '62 for earliest graduate; and Shirley Strachota Graham '64 for first reservation received. A special thanks to Bob Schams and the Ground Round Restaurant for providing door prizes.

Men's Basketball Team Reunion

Prior to the February 22nd UW-Stout Men's Basketball team game against Platteville, past members of the team gathered to play a rough game of hoops. Players returning for the game were: Mel Coleman '69, Jim Connelly '68, Glen Fischer '86, Jeff Cleveland '78, Kurt Stellpflug, Brian Ellingson '87, Tom Gomolak, Keith Stone, Troy Hamilton, Steve Petznick '91, Scott Gutzmann, Gary Lueck '76, Joe Kurth, John R. Patterson '91, Mike Barnes and Boyd Wiff '91. Returning team managers were: Red McAndrews and Pat Brady.

Connelly was recognized not only as the alum traveling the farthest, coming from San Antonio, TX, but also for being the earliest player in attendance. Cleveland and Brady were recognized as members of the 1974-75 Championship Team. McAndrews was recognized for his role of 1974-75 Championship Team Manager. Ellingson was recognized for holding the assist record.

Sorensen: Schools Face Challenges

Says worker quality must improve

The United States is losing two million jobs annually to foreign competition and new technologies, which indicates a strong need to improve the quality of our workforce, University of Wisconsin-Stout Chancellor Charles Sorensen says.

Sorensen made his comments recently to a group of top-level Hawaiian officials during a trip to the islands.

Each year, 400,000 workers need retraining, Sorensen said, and that high schools and colleges must take steps to ensure graduates are ready for the jobs being offered.

"... employment readiness will require a broadly educated, highly trained, technologically qualified workforce," Sorensen said.

Sorensen delivered his address in Hawaii at a special breakfast meeting on vocational education, attended by representatives from the Hawaiian State Board of Education, the Hawaiian State Senate, the University of Hawaii and other groups.

Sorensen also said that without a skilled, knowledgeable and flexible workforce, America cannot adjust to the new requirements and demands of a world economy. Sorensen pointed to a recent survey conducted by Fortune magazine showing that 77 percent of the 400 executives who responded ranked American education either fair or poor. He also pointed out that about half the high school graduates go on to college and in this group, about 50 percent complete their studies. He said 10 percent of the high school graduates go to technical school and about half graduate.

Sorensen said this is of particular concern because today's workers must be enterprising and creative; possess a broad technical background; have the ability to work independently with little supervision; have the ability to link the practical and the theoretical; and be a person who can analyze and find solutions.

He told the group that UW-Stout is keeping abreast of changing needs in the

Back row (l-r): Mike Rota, Vice Chancellor for Community Colleges, Alan Kohan, State Director of Vocational Education, Chancellor Charles W. Sorensen, Frank Walton, Director of Vocational Education for the University of Hawaii. Front row (l-r): Buster Hagiwara '44, Hawaii Construction Industry, State Senator Eloise Tungpalen and James Westlake, Director of Hawaii Construction Industry Association.

workplace by working closely with business and industry. He listed an inventory of some of the partnerships UW-Stout has built with industry, including co-op educational programs,

advisory boards, adjunct professors from the private sector, summer internships and the Stout Technology Park.

STOUT UNIVERSITY FOUNDATION GRANTS ANNOUNCED

Dr. Carol Dobrunz, chair of the Stout University Foundation Grants Committee, announced the following faculty and staff awards for 1992-93:

The Geraldine Hedberg Faculty and Staff Grants, a recent gift from the Hedberg Foundation to sponsor a portion of the Stout Foundation grant program with a gift of \$20,000 for the next five years, were awarded to:

• **Sputter Coating Samples for use in a Scanning Electron Microscope - Dr. Mary Orfield.** The Chemistry Department of UW-Stout received a gift of a scanning electron microscope from 3M. The microscope is now operating but limited to viewing metal samples which conduct electrons. This proposal is a request for a sputter coater which will be used to coat nonconducting samples with a metal or graphite making them suitable for viewing in the SEM and thereby greatly increasing the usefulness of the SEM.

• **Managing Your Marriage: Relationship Management Seminars for Rural West-Central Wisconsin Couples - Dr. Judy Rommel.** The purpose of this project is to develop pilot test and print materials for seminars under the title Managing Your Marriage. These seminars will focus on changes in the economic outlook for farm families which have created strains on management capabilities related to stress, conflict, time and relationships. Materials designed will assist farm couples in transferring farm business management skills to their marital relationship.

• **Tending Our P's & Q's: Progress and Quality at UW-Stout - Gloria Bjornerud and Margaret Madson.** The current period of resource limitation and rapid change suggests that the university must continuously improve quality to achieve progress as well as to stem to the erosion of public confidence toward higher education. This project will provide training and materials related to quality improvement methods for faculty, academic staff and

classified personnel.

The Stout University Foundation Grants were awarded to:

• **Library Special Services Directory - Richard Banks/Theresa Muraski.** This project is designed to create an electronic directory to the services available for students with disabilities at the UW-Stout Library Learning Center. It will serve as a user friendly program that will show services, equipment and personnel to students, faculty and staff.

• **Instrumental Music Program at UW-Stout - Cathie Weissman/Jim Moss.** The purpose of this proposal is to obtain tour funding. The bands will be able to make a one time trip as far as Milwaukee to perform at city schools with which UW-Stout has partnership agreements.

• **Minority Retention Survey - Richard Tafalla.** Minority student recruitment at UW-Stout has shown great improvement, however, the retention rate of minority students remains substantially lower than non-minorities. The purpose of this project is to determine factors that contribute to the low minority student retention.

• **Multicultural Culinary Experience - Gladys Earl.** A multicultural culinary experience is planned for Family Weekend to be held on campus April 11, 1992. Participants will research, create and share foods of many cultures. The purpose of this experience is to develop students' knowledge of the foods used by many cultures, provide an opportunity to share culture, and gain and promote an appreciation for and acceptance of foods of other cultures.

• **Interactive Programs of Ethical Development Outside of the Classroom Environment - Mary McManus/Thomastine Ureh.** This goal of this project is to promote discussion of personal and professional ethical issues in an arena outside of the classroom environment.

Approval Given to Plan Engineering Degree

Approval for the university to plan a new degree program in manufacturing engineering is another milestone for the institution and perhaps one of the most significant developments of the decade for the UW System, Chancellor Charles W. Sorensen said. Sorensen issued his statement following approval by the University of Wisconsin System Administration for Stout's "entitlement to plan," the first step in a formal process of obtaining a new degree program. The approval followed a first reading of a "change of mission" for the university by the Board of Regents. The university will have about a year to plan curriculum and secure staffing before returning to the Board of Regents to seek final approval of the degree.

The new degree will require a slight modification to the university's mission statement to include manufacturing engineering. Final approval for the mission change would come at the same time as final approval for the degree program. The degree program was proposed after extensive study, including a recent consultants' report that was completed in January, Sorensen said. The consultants' report concluded that the applied nature of preparation for graduation from a proposed UW-Stout manufacturing engineering program would be closely attuned to the needs of medium and small manufacturing firms.

School of Home Economics Proposes Name Change

The faculty and staff of the School of Home Economics have proposed to Vice Chancellor DePuy that the name of the School be changed to the "College of Human Environmental Services" effective August 1992. Dean Esther Fahm states that the name change is "based on the current focus of academic program offerings and the contemporary mission of the School. Additionally, the proposed change reflects the evolution and development of home economics as a professional field of study in higher education as well as the organization and function of the unit at our University." The American Home Economics Association recently reported 95 different names for units traditionally known as "Home Economics".

ATTN: Industrial Technology Graduates

UW-Stout industrial technology graduates who received their degrees between 1981 and 1992 are eligible for automatic certification through the National Association of Industrial Technology (NAIT) as either Certified Industrial Technologists (CIT) or Certified Senior Industrial Technologists (CSIT) if they have at least five years of appropriate work experience. Students who have graduated from accredited programs (which Stout has been since 1981) are eligible to be certified through a "Grandfather" clause being offered by NAIT until December 1992. After that time they would need to pass a certification examination in order to be allowed to use the CIT or CSIT designation after their name. UW-Stout will be mailing application forms to Stout graduates in September. If you want information before that time, contact: National Association of Industrial Technology, 3157 Packard Road, Suite A, Ann Arbor, Michigan 48108. Phone (313) 677-0720.

8 UNIVERSITY OUTLOOK

Chancellor Charles W. Sorensen, Kim Canavera, student, Rita Slinden, acting athletic director, Kay Carter, women's gymnastic coach and Pat Reisinger, Stout Foundation Director and current Menomonie Area Branch President of AAUW.

UW-System Women's Athletics was honored at the "National Girls & Women in Sports Day," March 5, 1992, Inn on the Park Madison. The Stout representatives included: (front l-r) Lori Anda-Bowen, head softball coach, intramural director Deb Allyn, head volleyball coach/wellness coordinator, and students Jennifer Carter and Lara Wegner (back l-r) Judy Spain,

The women honor scholars acknowledged and Sue Butler President of the American Association of University Women (AAUW) Legal Advocacy Fund presented Katharine Lyall, Acting President of the UW-System with a check in the amount of \$5000 for Wisconsin Title IX outstanding women's programs.

Fryklund Hall Remodeling and Auction

Plans for Fryklund Hall's \$5 million remodeling project are on schedule. When completed, the remodeled Fryklund Hall will provide state-of-the-art laboratories for computer assisted drafting and design, electronics, optics, computer integrated manufacturing, metallurgy and metal forming processes. A computer based apparel and textile design laboratory will be included on a portion of the third floor. This laboratory will also include CAD and CIM equipment.

Individuals interested in a listing of surplus equipment to be auctioned in mid-May, contact Jean at 715/232-1686.

University Assists Firm With Reusable Container

A major Wisconsin manufacturing firm is proving that what's good for the environment can also be good for profits. John Deere's lawn and garden manufacturing plant in Horicon is switching to a reusable container system for its suppliers who now ship parts to the plant in costly, throw-away packaging. The container project is a cooperative venture with another Wisconsin company, Phillips Plastics Corp., and the university. Phillips has developed a computerized system to manage the reusable containers, said Bruce Hendrickson, president of Troix Corp., Division of Phillips Plastics. "We had to develop a system that would get the appropriate container to the right place at the right time," Hendrickson said. "The container tracking system will extend from the assembler's station at the Horicon plant to the manufacturing facilities of component parts suppliers,

and all the handling and transportation points in between." Hendrickson said the new process will streamline handling procedures, increase product quality, provide a better work environment and reduce costs. In 1990, Phillips and John

"What made this project unique was John Deere's willingness to look at the long-range impact not only on productivity but the environment as well."

*-Larry Schneider, Director
Technology Transfer Institute*

Deere asked Stout to analyze John Deere's materials handling system. "Materials handling is a significant portion of manufacture and delivery costs of consumer goods," said Larry Schneider, director of the Technology Transfer Institute. "It's an important area of concern for companies looking to

improve productivity. We regularly work with companies to address this issue. What made this project unique was John Deere's willingness to look at the long-range impact not only on productivity but the environment as well." Although John Deere Horicon Works had an award-winning recycling program in place, the company sent a significant amount of compacted crating and cartons to landfills. Wisconsin's new and tougher recycling law calls for increased restrictions on landfill use and greater reliance on recycling. As environmental laws become stricter, many manufacturing firms are expected to revamp their production processes. Deere went beyond minimal compliance with the law by implementing the reusable containers. The Stout study indicated that Deere could save more than \$500,000 annually with a program that reduced package and landfill costs.

UW-Stout Seeks Cuban Contacts

By Pamela Bowers
Eau Claire Leader-Telegram

The University of Wisconsin-Stout chancellor and two faculty members recently traveled to Cuba to look into the possibility of developing some type of exchange program with the University of Havana.

Chancellor Charles Sorensen, Esther Fahm, dean of the School of Home Economics, and Jafar Jafari, associate professor of the Department of Hospitality and Tourism, went to Cuba from Feb. 24 to March 2. Their trip was funded by a tourism agency for the Cuban government.

"We just got acquainted more or less," Sorensen said. "We signed a very general agreement saying within the laws of both countries we will try to find ways to cooperate."

Sorensen said in the near future it may be possible for the vice president and/or the president of University of Havana to visit Menomonie.

"Any relationship between the two universities will be difficult now because of the sanctions the United States has against Cuba," Sorensen said. "The U.S. State Department would allow him and

UW-Stout representatives (back l-r) Jafar Jafari, associate professor of the Department of Hospitality and Tourism, Chancellor Charles W. Sorensen, Esther Fahm, dean of the School of Home Economics with Cuban hosts Lic. Bernardo Nievaes De Lama, Orlando Rangel and Jesus Alvarez Valdes

the faculty to travel to Cuba if they agreed not to give information that would help Cuba develop its economy," Sorensen added.

"(This was) an attempt to develop a relationship so when we have normal relations with Cuba we'll be in a good position to have cooperative partnerships

with Havana," Sorensen said.

Sorensen said he believes within a decade the U.S. will lift sanctions and recognize the Cuban government.

At this point it may be possible to develop a faculty and student exchange program with the University of Havana and the two schools could engage in joint

research projects, he said.

Four American universities have an association with Havana now, Sorensen said.

"We hope they'll provide insight into what we can and cannot do," he said.

UW-Stout was contacted by Cuban officials because they are interested in developing tourism, which is a program at the Wisconsin school. Cubans want to increase tourism to spur their economy, Sorensen said.

Sorensen said Havana is a grand city, but with poor infrastructure. The city with about two million people is run down and lights are kept off to save electricity.

The University of Havana is also deteriorating and in need of repair, Sorensen said. Between 7,000 and 8,000 full-time students attend the college, although the extension programs reach about 25,000 people.

Despite the run-down condition of the university, faculty members are upbeat and very active doing research, Sorensen said.

For us to have an opportunity to be one of the first schools to work with the University of Havana, to help them when it is legally possible to do so, is exciting," Sorensen said, noting future exchange programs could allow cultural opportunities for UW-Stout students.

9 CLASS NOTES

1933-1969

Lyle Wines BS '33, MS '42, is retired in Cambria, CA, but is still active in the Retired Public Employees Association and the Cambria Round Table. He has received recognition from the Experimental Aviation Association for completing reconstruction of a 1946 Aeronca Champion and is currently building a Kitfox. **John** '42 and **Marian Henderson Hub** '42, Naperville, IL, celebrated 48 years of marriage on December 22, 1991. During the summer of 1991, John participated in the third U.S. National Senior Olympics in Syracuse, New York, where he placed fifth in the 100-meter breaststroke and sixth in the high jump. There were over 5,200 seniors enrolled in 18 athletic events. **Pete Bibb** '51 lives in Juneau, Alaska. **Dean** '52

Pete Bibb '51

and **Valeria Bloom Cornwell** '53, Wauwatosa, are both retired from the Milwaukee Public School System and now spend about six months of the year traveling in the U.S., Mexico and Canada in their motor home. **Ronald Johnson** '54, Woodville, is retired after 35 years of teaching. **Lyle Martens** BS '57, MS '62, Waunakee, is the deputy superintendent of the state Department of Public Instruction. **Audrey Adams Johnson** '58, Viola, has retired after 31 years of teaching at Kickapoo Schools. **Wallace Schmeling** MS '59 is superintendent of Mandan Public Schools, Mandan, ND. **Katchen Kubitz Ringelstetter** '60, Madison, is a school food services specialist/consultant for the Wisconsin Department of Public Instruction. She has also assumed the office of treasurer for the Phi Upsilon Omicron Madison alumni chapter. **Anne Thiel Reuther** BS '61, MS '84, New Berlin, is food service supervisor for the school districts of Elm Brook and Muskego/Norway. **Arthur Hanke** BS '62, MS '62 is director of media services at Township High School, Arlington Heights, IL. **Joanne Gosser Seiler** '62 is a teacher in the Family and Consumer Education Department at D.C. Everest Senior High, Schofield. **Susan Banovich Oxendorf** BS '64, MS '68, Spring Hill, FL, is a home economics teacher at Hernando High School and was recently named to the Hernando County Academy of Teachers. She is the creator of the successful Hernandough Catering program in which students experience all phases of the food service industry. **Brian Walker** '64, Manitowoc, has joined Norwest Bank as vice president of business banking. **Harold Ehrenreich** BS '65, MS '66, math instructor at Northcentral Technical College, Wausau, has been nominated for the "Outstanding Vocational Teacher" award by the Wisconsin Vocational Association. **Paul Barry** BS '67, MS '68, Cudahy, is a technology education teacher at Cudahy Senior High School. He is also a member of the band, Barry's Truckers, which he started in 1971. **Jeanne Storm Schwass** '67 was elected Stoughton Public Schools "Teacher of the Year" for 1991. **Tim Wentling** BS '67, MS '68 is a professor and head of the Department of Vocational and Technical Education, College of Education, University of Illinois. **Marian Gullickson Dombrock** BS '68, MS '72, Apple Valley, MN, an Edina High School personal and family life sciences teacher, was presented the state "Home Economics Teacher of the Year" award at the April 1991 MHEA state convention held in Duluth. She was also honored as one of the top ten home economics teachers nationally by AHEA. **Carl Riis** '68, Roanoke, TX, is a pilot for Delta Airlines. **Diane Johnson Brion** BS '69, MS '74, UW-Extension home economist in Buffalo and Pepin counties, received the National Association of Extension Home Economists 1991 Distinguished Service Award. **Helen Larson** MS '69, counselor at Northcentral Technical College, Wausau, has been nominated for an award of excellence from the Wisconsin Vocational Association in the "Specialty Services" category.

Ronald Trimberger '69, Appleton, was elected president of the Wisconsin Restaurant Association which has 2,500 members.

1970-1974

Dawn Carlson '70, Baltimore, MD, is a senior clinical dietitian at Johns Hopkins Hospital. **Robert Zeidler** '70 is an engineer with United Technologies, Milwaukee. **Harald Barry** BS '71, MS '83 was recently appointed vice president of manufacturing at Red Wing Shoe Co., Red Wing, MN. Barry previously was superintendent of the company's Burnside plant. **Robert Cavey** '71 of KV Graphics, Chanhassen, MN, designed a software package for the Macintosh computer, "Swamp Gas Visits the United States of America," which won the honorable mention award for education software at the MacUser Editors Choice Awards in San Francisco. In addition, Swamp Gas was chosen as one of the top 100 software packages of the year by MacUser in their December 1991 issue. **Ellie Lotz Dietrich** '71 is MBA counseling services coordinator at Penn State University, State College, PA. **Dan Hampton** BA '71 has been named first vice president of investments at Robert W. Baird & Co., La Crosse. **John Lalor** BS '71, MS '74, Waunakee, has been named administrative dean, Instruction Support/Outreach Services, Madison Area Technical College. **Donald Nelson** '71 is director of purchasing at Geo. A. Hormel & Co., Austin, MN. **Maury Schiowitz** '71 has retired from the packaging industry and now resides in Palm Beach Gardens, FL. **Kathryn Alder** '72, Lake Geneva, is the club membership director for Geneva National, a 1600-acre residential/recreational community. **Rick Bruhn** BA '73, MS '75 is an associate professor of counselor education at Sam Houston State University, Huntsville, TX. **Bruce Lemery** MS '73 is superintendent of the Hillsboro School District. **Katie Nezworski Petersen** '73 is the owner/director of Playmates Nursery School, Fond du Lac. **Beth Milatz Brusberg** '74 is a family and consumer education teacher at Edison Middle School, Janesville. **Brenda Otto Kramer** MS '74 & '75, Rochester, MN, is director of adult services for Olmsted County Social Services. She was one of four Minnesotans to be named to the Midwest Mental Health Leadership Corps, a training program sponsored by the National Institute of Mental Health. **Rachel Coggins Lent** '74, Port Edwards, received a master's degree in human and community resources from UW-Stevens Point in December and now teaches family and consumer education and health at East Junior High, Wisconsin Rapids. **David** '74 and **Susan Mayer Lundin** '73 reside in Lexington, KY. David is manager of organization, training and development at Standard Products Co.; Susan is manager of the University Center Cafeteria and Catering Services at Eastern Kentucky University. **Judy Murray** '74, Madison, is a home economics teacher at Lake Mills High School. **Emil Remus** BS '74, MS '80 has been promoted to the rank of full professor of auto-diesel technology in the College of Career and Vocational Education at the University of Alaska. **Peter Sesselman** BS '74, MS '76 is a rehabilitation counselor in Helena, MT. **Mark Stieglitz** '74, Menomonee Falls, was appointed director of sales and marketing for Beatrice Cheese Inc., a division of Con-Agra Foods. **Robert** '74 and **Shelley Sherman Ward** '75 reside in Springfield, MO. Robert is director of customer service at Burlington Northern Railroad. **Ann Welch** '74 was ordained in November by American Baptist Churches/USA. She is the minister of youth and christian education at First Baptist Church, Howell, MI.

1975-1979

Mark '75 and **Julie Beaver Kinney** '76 reside in Menomonie and are celebrating their tenth year in business as All American Mfg., Boyceville. Mark also serves on the Stout Foundation Board. **Gary** '75 and **Teresa Simmons Schoenborn** '75 are now residing in Wisconsin Rapids. Gary has been elected president of the Vietnam Veterans of America Central Wisconsin Chapter 101. **Daniel Scott** MS '75, Port Edwards, is vice president of manufacturing at Opportunity Development Centers Inc. **Steven Vande Berg** MS '75, Menomonie, owner of the Best Western Holiday Lodge, has become the first Wisconsin hotelier to be elected to the board of directors for Best Western International Inc., the world's largest lodging chain. The board formulates corporate policy and provides direction for Best Western's nearly 1,900 hotel properties throughout the United States, Canada and the Caribbean. **Chuck Caverly** '76 was recently appointed vice president of research and product development at Red Wing Shoe Co., Red Wing, MN. Formerly, he was process engineer for manufacturing in charge of implementing continuous flow manufacturing. **Steven Duginski** BS '76, MS '88, Green Bay, is an instructor at NWTCC. **Ronald Mundt** '76, Pewaukee, is manager of technical communications at Harley-Davidson

Inc. **John Warren** BS '76, MS '81 is a drafting teacher in the Mukwonago School District. He has recently been featured in a number of publications including the Milwaukee Journal for his program in "real education." The program gets industry and business involved in the teaching process so students can get a taste of the real world of work. **Frank Worachek** '76, Platteville, is director of Southwest Opportunity Center, which provides prevocational training to developmentally disabled people. **Gregory Plutshack** BS '77, MS '81 is the safety/risk management coordinator at Immanuel Medical Center, Omaha, NE. **Karen Virnoche-Brown** '77, Freeport, IL, is director of training and development with Service Master Food Management Services. **Beth Brandes Anderson** '78 is a home economics teacher at North Junior High School, Crystal Lake, IL. **Judy Stanzek Gradel** '78 is a first grade teacher for New Berlin Public Schools. **Dianne Meinholz Hoffman** MS '78, Stoddard, is a teacher at Western Wisconsin Technical College and was recognized as Region III "Teacher of the Year" at the American Vocational Association Convention held in Los Angeles in December. **Edward Kuehn** Ed.S. '78, Dunwoody, GA, is a systems analyst with HBO/Time and has recently returned from a year and a half overseas assignment in England. **Jan Nichols Mattingly** '78, Lakeland, FL, is president of Survey USA Inc., a market research firm serving the tourism industry. **John Motola** '78 is director of catering at the Seattle Marriott Hotel, Seattle, WA. He is also president of the Pacific Northwest Chapter of the National Association of Catering Executives. **William Otto** '78, Nashville, TN, is general manager of the Stouffer Nashville Hotel and is currently serving as president of the Nashville Hotel-Motel Association. The Stouffer Nashville Hotel received the 1991 "Hotel of the Year" award at the Stouffer Hotels and Resorts Management Conference held in Cleveland, OH. **Barbara Diel Rogaczewski** '78 is an account representative for Frank F. Haack & Associates, Milwaukee. **Sandra Quilling Buran** '79, Ocean Park, WA, has been invited to be a delegate for the Citizen Ambassador Program of People to People International, which each year develops a limited number of specialized teams to travel to countries throughout the world for the purpose of professional, scientific and technical exchanges. In May she will be among the delegation of reading educators to travel to Budapest, Hungary, Moscow and St. Petersburg. **Paul Ferguson** '79, Linden, MI, is supervisor of manufacturing engineering at General Motors Powertrain. **Mark Nowak** '79, Coal Center, PA, is a professor in the Department of Industry and Technology at California University of Pennsylvania. **Mitchell Ormson** '79 has been promoted to major in the United States Army while serving at the U.S. Army Ordnance Center and School, Aberdeen Proving Ground, MD. He is an instructor/writer with the School's Command and Staff Department and is currently on temporary duty in the Kingdom of Saudi Arabia as part of the Saudi Arabian army modernization program. His Army specialty is tank/automotive material management. **Paula Beving Ruesink** '79, Wykoff, MN, is employed by Premier Bank and is co-owner of an apple orchard. **Susan Peterson** '79, Maplewood, MN, is working on a master's degree in early childhood education at the University of Minnesota. **Mary Shroyer** '79, Eagan, MN, is a service specialist for Northwestern Bell/U.S. West. She recently participated in a four-week group study exchange program in Seoul, Korea. The exchange was sponsored by Rotary International. **Daniel Wanish** MS '79, Plymouth, is a counselor at Glidden School. **Richard Zoerb** '79, Rhinelander, is manager of the Best Western Claridge Motor Inn.

1980-1983

Gary Anderson '80 is manager of manufacturing at Badger Paper Mills Inc., Peshtigo. **Michael Bock** MS '80 is a counselor for Pierce County Mental Health Services, Ellsworth, and Lumbro Valley Mental Health Services, Red Wing, MN. **Cindy Hass** '80, Fall Creek, is the coordinator for Outreach Ministry at UW-Stevens Point. She recently completed three and one-half years of cross cultural work in Taipei, Taiwan. **Jeffrey Ketcham** '80, Dayton, OH, is a dietitian at Miami Valley Hospital and was elected treasurer of the Ohio Dietetic Association in July. He has received a master's degree in business administration from Wright State University. **Peter** '80 and **Robyn Leeseberg Morin** BS '78, MS '82 reside in Menomonie. Peter is an attorney; Robyn is a key account representative for Warner-Lambert Co. **Richard Sprecher** '80 has been appointed director of development for the states of Illinois, Iowa, Minnesota and Wisconsin at Choice Hotels International, the largest hotel franchisor in the world with more than 2,700 hotels, inns, suites and resorts in 25 countries. **Gregory St. Claire** '80, Stillwater, MN, is a simulator standards and development pilot for Northwest Airlines Inc. **Claude** '80 and **Jana Davis Zimmerman** '78

Donna Fain Brown '81

reside in Port Washington. Claude is a training coordinator for Kohler Co.; Jana is a dietitian at the VA Hospital in Milwaukee. **Helen Guhl Adams** MS '81, school library media specialist at Rosholt High School, was awarded a Kohl Teacher Fellowship. **Mark** '81 and **Sim Papageorge Boyle** '81 reside in Green Bay. Mark has been promoted to district sales manager for the Green Bay area at Baraboo Sysco. **Donna Fain Brown** '81, San Jose, CA, represented Chancellor Sorensen and UW-Stout at the October inauguration of John P. Schlegel, president of the University of San Francisco. **Christopher Chapman** '81, St. Paul, MN, is the general manager of Golden Valley Country Club Inc. **Cindy Hodsdon** '81, Moses Lake, WA, is a social worker/parent educator and serves as board president of the local Planned Parenthood agency. **William Kuhns** MS '81, West

Jerilyn Kinkema Dinsmoor '82

Worthington, OH, is a behavior specialist with the Franklin County Board of Mental Retardation. In addition he has also been hired as a behavior therapist consultant by the Individual Options Program of the Ohio Department of Mental Retardation and Developmental Disabilities. **Luanne Neumann** MS '81, Prairie Du Chien, has been promoted to associate professor with the University of Wisconsin-Extension. She is extension home economist for Crawford County. **Kenneth** '81 and **Karen Reinhardt Roberts** '88 reside in Stockbridge, GA. Both are employed at the Catalog Distribution Center of J.C. Penney Co. in Atlanta, GA. **Michael Van Rite** '81, food and beverage director, Embassy Suites, Green Bay, was named Green Bay area Outstanding Restaurateur of the Year 1992. **Gregory Blair** '82, Wisconsin Rapids, has received a master of science in education from UW-Stevens Point. **Kirk Carson** '82, St. Paul, MN, is a unit clerk with the Minnesota Army National Guard. **Jerilyn Kinkema Dinsmoor** '82 is executive director of the Pump House Regional Center for the Arts, La Crosse. She was named the 1991 "YWCA Outstanding Woman in the Arts." **David Keith** '82 is catering sales manager at Red Apron Catering, Long Lake, MN. **Susan Nelson** '82 is an accountant with Servicemaster, Downers Grove, IL. **Kim Maroney** '82 earned a master's degree in human resources training and development from St. Cloud State University and is now employed as a human resource manager in Orlando, FL. **Gary Schlaeger** '82, Austin, TX, has been promoted to senior development engineer, Electrical Products Division, 3M. **Michael Schmitz** '82, Rochester Hills, MI, is warranty product compliance manager, Pontiac Division, General Motors Corp. **Janet Schneider Yardley** '82 is marketing manager for

10 CLASS NOTES

The William Carter Co., New York, NY. **Debra Bell** BS '83, MS '91 is a second grade teacher in the Boyceville Community Schools. **Melanie Block** '83, Bayside, NY, is district hospital representative, Roerig Division, Pfizer Pharmaceuticals. **Craig Frey** '83 is employed by IBM, Rochester, MN. **Gary Friederichs** '83 is a principal in the industrial design consulting office of Matre Design Inc., Milwaukee. **Sihiyona Yoila Gomos** '83 is a high school teacher in Jos, Plateau State, Nigeria. **David Hawes** '83 and brother **John Hawes** '83, Racine,

Foods, Franklin. **Mary Kiwus Wiseman** '85 and husband, Bill, are the owners of Wiseman Vending, Savage, MN. **Kent Barrett** '86 has been promoted to regional sales director, Marriott Corp., Facilities Management Services, Andover. **Sidney Bauer** BS '86, MS '88 is a vocational consultant with MV Consultants, Eau Claire. **Patricia Capouch Bowman** '86, East Providence, RI, is an instructor in the Hospitality College of Johnson and Wales University. **Susan Castronova** '86, Plano, TX, is national account manager for the city and state of

It's come to our attention

Our readers have alerted us to error appearing in the recent issue of the Outlook. We regret the error and would like to correct the information.

•Marlene Backhaus was not identified in the photo for 15 years of service (middle row third from right).

In Memory of Lillian Clair Jeter

Lillian was born March 20, 1891 to Walter and Alice Jeter. She grew up in the Alden, Kansas, area and attended Alden schools. After graduating from the high school, she taught in the Alden grade school for a short time.

Lillian received a B.S. degree from Kansas State College in Manhattan and a master's degree from Central University in New York. She taught at Freemont High School in Freemont, Nebraska, Nebraska Wesleyan College and

Alabama State College. In 1927, she began teaching at Stout State University in Menomonie, Wisconsin. She remained there until her retirement in 1961. In 1959, Lillian was honored for her 30 years of distinguished service at Stout University. A new dorm housing freshman home economics students was named Jeter Hall in her honor.

After retirement, Lillian returned to Kansas where she had been living until her death.

Lillian Clair Jeter at her 100th birthday celebration on March 16, 1991
